

Information from HORN GmbH & Co. KG on RoHS

As a manufacturer, we take our obligations from the European directive on the avoidance of hazardous substances in electrical and electronic equipment RoHS 2011/65/EU and the delegated directives very seriously. We will be pleased to help you prove the compliance of our articles/devices with RoHS and provide the relevant documents.

- For devices that are subject to RoHS, we issue a declaration of conformity in accordance with the requirements of the directive. The declaration of conformity is part of the operating instructions and can be sent to you separately on request.
- For components that you as a customer install in affected devices, we can check compliance with the requirements of RoHS on request and then issue an appropriate certificate.

Most of our devices are not subject to RoHS. These are

- non-electrical equipment,
- Equipment that is explicitly excluded from the directive according to RoHS 2011/65/EU, Art. 2.

Therefore, please understand that we cannot issue general certificates of compliance with the RoHS requirements for all our articles/equipment. Furthermore, due to the high number of enquiries, we are unable to complete any specific questionnaires on this subject.

We hope this information will help you to fulfil your obligations under the directive. If you have any further questions, please do not hesitate to contact us.

Flensburg, May 19

i.V. Dipl.-Ing. Jörg Mohr
Engineering Manager
